

LEATHER CARE

Interior treatment

Description :

LEATHER CARE is a lanolin-based conditioner that nourishes and protects leather. This interior treatment allows leather to be waterproof without preventing the materials from breathing for maximum protection.

Protects leather, vinyl seats and door rubbers for longer life. Nourishes the leather and keeps it supple, it is easy to apply and requires only a light polishing.

Advantages :

- The active ingredients of the leather and vinyl treatment are waterproof.
- Increases the life of the door rubbers.
- Nourishes and softens the leather.
- The product dries quickly leaving a satin finish and not greasy.
- The treatment is easy to use and durable.

Instructions :

* It is better to clean the leather before applying the treatment.

Soak a clean cloth then spread evenly over leather, rubber, vinyl or any other surface to be treated.

Let the product dry and wipe off with a soft cloth. For a shinier finish, polish the leather or treated surface.
