

ECO WASH Waterless cleaner

Description :

The ecological solution for washing the car. Cleans without water in one easy, fast and very efficient operation. ECO WASH encapsulates dirt and dust for a scratch-free cleaning that provides a sparkling shine on all surfaces. Composed of natural waxes that do not stain plastics. The easiest way to clean and protect your car without the help of a bucket or a garden hose.

This product can also be used on chrome, glass, dashboard and door panels. Easily removes fingerprints and swirls on new cars and leaves a dazzling shine. Only ten minutes is enough to wash a vehicle; Just spray, rub and wipe off to preserve and renew the original shine.

ECO WASH is used to wash or just maintain the shine of your car. It increases the gloss of paint on used or new cars and does not affect wax or sealant.

Advantages :

- Fast and easy to use.
- Economical and ready to use, 500 mL (16 ounces) will clean 5-7 vehicles.
- Wet, glossy and exceptionally soft finish.
- Removes micro-scratches and swirl marks on paint.
- Cleans and shines all exterior surfaces.
- Does not stain plastics and rubbers.

Instructions :

Can be applied in direct sunlight or on very cold or hot surfaces. Spray a thin layer of ECO WASH on your car, one panel at a time. Leave to act for a few seconds to soak and dissolve the dirt. Wipe gently with a clean microfiber cloth. Immediately wipe with another clean microfiber cloth for a shiny finish. Use different cloths for the top and bottom surfaces to avoid scratches. Avoid splashing on surfaces already cleaned.
