

WET SHINE

Rubber & Plastic Dressing

Description :

WET SHINE is a solvent-based renovator that treats and preserves for a shiny luster vinyl, rubber, leather, plastic etc. Ready to use WET SHINE is ideal for bumpers, scratches, vinyl mats and all types of tires. Leaves a sheer glossy finish that dry to the touch. Lasts more than 30 days. The anti-static repels dust. Resistant to detergents.

Advantages :

- Effectively shines and protects rubber, plastic and vinyl surfaces.
- Solvent-based formulation penetrates surfaces to improve durability.
- Leaves a matte finish if wiped or a glossy sheen if allowed to dry.

Instructions :

Tires

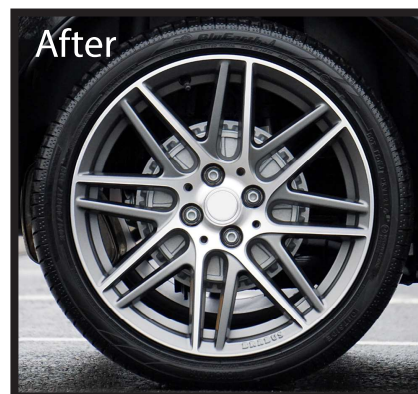

1. Spray the product on the terry cloth applicator # 4021 or use a brush and a bucket.
2. Apply to the tire with the pad or brush.
3. Let the product dry before moving vehicle.

Interior and Exterior

1. Spray product on Foam Applicator # 4021.
2. Apply to a clean and dry surface.
3. Wipe off for a matte finish or let it dry for a shiny finish.

Warning

Contains oily elements. Do not spray in or near a paint shop or body shop when ventilation is on.
