

HI PERFORMANCE

Acid Mag Cleaner

Description :

Excellent cleaner based on natural acid to quickly clean all types of wheels. Removes brake grease, dirt and dust from wheel covers and rims. Safe to use on aluminum or magnesium wheels. Does not damage brake pads and varnish on alloy wheels.

The rim cleaner contains a special blend of penetrating agents that dissolves dirt and contains an anti-rust neutralizer that preventing rust formation. Formulation reinforced with thixotropic agents that grip the vertical surface for better cleaning.

Advantages :

- Thixotropic concentrated formula.
- Prevents rust on the brake discs.
- Cleans easily and quickly: spray and rinse.
- Excellent for all types of wheels.
- Low odor, conforms to VOC standards.

Instructions :

First rinse the surface with water and spray HI PERFORMANCE directly on the rims. Allow the cleaner to soak in for about a minute. Rinse with a powerful jet of water. Wipe with a cloth or let it dry. When the rims are very dirty, apply the product and scrub with a brush. Rinse with powerful water jet. Do not let dry on the surface.

Do not apply this product to cold or hot surfaces. Do not let the product dry on the surface. Do not apply this product to wheels with a colorless coating that is cracked or chipped. It could be discolor the wheels.
