

WHEELS Tire & Bug Cleaner

Description :

WEELS is a concentrated, water-based, ready-to-use, highly alkaline cleaner. Excellent on black tires or white sidewalls. Its 30-second foaming action provides quick cleaning.

It lifts the brownish and yellowish dirt accumulated on the tires. Ideal for rubber mats and insect stains on vehicle body. Safe on tires and plastic hubcap. Excellent on all types of vehicles.

Advantages :

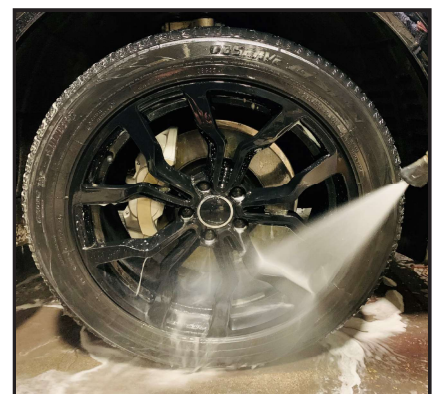

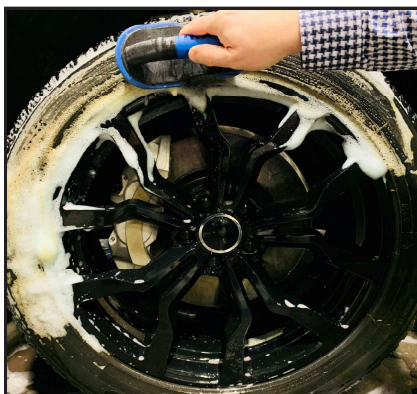

- Inexpensive because it is concentrated water-based.
- Excellent on regular tires or whitewalls.
- Eliminate insect stains on bodywork.
- High performance and biodegradable which makes it a safe product for the environment.

Instructions :

Tire: Apply the product freely on the tire. Where there may be deep scuffs, brush with the # 5200 nylon brush. Allow the cleanser to act for 30 seconds or more before rinsing off with a strong stream of water. Hold the water sprayer 8 to 12 inches from the tire, and rinse from several angles.

Insect Stains: Diluted 1: 1 for removing insect stains. Wet the surface before applying the tire and bug cleaner to avoid damaging the paint. Leave on for a minute and then rinse off.

Do not apply to a hot surface or allow it to dry, as the product may stain.
