

WASH & SHINE Concentrated Car Wash & Wax

Description :

Wash & Shine is a soap that provides exceptional shine. This unique product formulated for extreme weather condition. It does not contain any aggressive surfactants but dislodge contaminants and dirt from the paint without difficulty, while leaving a thin layer of carnauba wax.

This concentrated soap is excellent for all types of businesses such as car wash, mechanic shop, body shop, new or used car dealers and of course consumer. It can be used for washing by hand or with a pressure system. Easy to use: wash, rinse and let it dry.

Advantages :

- Highly concentrated soap with Carnauba wax.
- Foaming action loosens stubborn dirt.
- Leaves no marks and rinses easily.
- Biodegradable components, pH neutral soft on hand.

Instructions :

Remove loose dirt by rinsing car with water.

For normal use, add 50 ml of concentrated soap to 4 liters of warm water. For heavily soiled vehicles, 100ml for 4 liters of warm water. Shake well and lather.

Always start by washing your vehicle from the top and finish at the bottom. Use a wash mitt or sponge soaking in the preparation. Rinse with water after washing each section of the vehicle to prevent the soap from drying on the vehicle.

Rinse the vehicle thoroughly and allow to air dry. If the water is hard, it will leave limestone marks when drying, in this case dry with a chamois or a squeegee.
