

TRUCK ALU

Acid Cleaner for Polished Aluminium

Description :

TRUCK ALU is a powerful aluminum cleaner, it is safe for polished aluminum and glass. This product has been designed to quickly and effectively remove oxidation and corrosion from aluminum surfaces, especially on trailers and transport equipment. TRUCK ALU does not require any rubbing or polishing. It leaves a very nice shine on the surface.

Advantages :

- Will not turn polished aluminium chalky.
- Removes oxidation on metal and leaves a sparkling finish.
- No unpleasant smell.

Instructions :

Using a pressure washer, rinse carefully starting at the top. Take special care in rinsing rain gutters, hollow and hidden spots. Spray on a wet surface, using the recommended dilution for the specific application. Always start by spraying the cleaner from bottom up, working a surface of 1.50 m wide (4 to 5 ft.) by 3 m high (8 ft.). Let the cleaner activate for approximately one minute, some surface conditions may require brushing for better results. Final rinse is from the top down.

Recommended Use:

The dilution percentage may vary from one application to another depending on the type of surface to be cleaned.

Light oxidation or relatively new surface : 10 – 1

Surface showing medium oxidation : 5 – 1

Highly oxidized and corroded surface : 2 - 1

WARNING: Corrosive product, always wear protective clothing, gloves, rubber boots and safety glasses. Always use plastic containers. Never use galvanized containers for mixing TRUCKALU.
